

# FastFind Consultancy Solution

Whether you're starting new projects or shaping new strategies for your business, it can be difficult to know if you're heading down the correct path. The pressure to get things right can be high and your organisation depends on your leadership and direction to succeed.

Enter Node4's FastFind solution - our low cost, high value consultancy offering.

Designed to add worth by offering you expert advice and assessment for your individual requirements, we can help you with quick wins, long-term goals and driving an IT strategy that will improve your organisation's performance.

We'll pinpoint bottlenecks in your systems and organisation structure, identify security risks and provide a roadmap to help you to improve not only your efficiency, but your ROI and customer satisfaction, too, all at an affordable price point that will pay for itself once improvements have been implemented.

## What is FastFind?

This consultancy offering has been built to identify the issues and risks affecting an organisation's performance and craft a strategy to tackle them, with a focus on how to implement fixes to affect both the short and long term.

We take a comprehensive look at your IT estate and identify improvements to your systems and organisational structure, whilst always staying mindful of any potential security risks.

## Who is FastFind for?

The service is designed for organisations of all sizes that want to improve their efficiency, streamline their processes and enhance their return on investment. Getting a fresh pair of eyes on your IT services offering, whether you're pre-delivery or currently providing your service to your customers can be vital - we provide objective consultation designed to make the most out of your systems and applications.

## Our Methodology

**Engage** - we begin with a formal fact-finding approach with discussions with C-level representatives, designed to identify pain points in your service offering, operations and processes

**Assess** - a tailored and templatised assessment process, created to ensure that we capture all relevant information and data

**Evaluate** - based on the information gathered in the Engage and Assess stages, our team of experienced consultants will make recommendations based on your requirements

**Deliver** - we provide a detailed report, delivered in person by one of senior consultants, which will be designed to feed into your existing IT and business strategy to meet your goals, whether short or long term

## Our Assessment Points

Our detailed report will focus on:

- Microsoft Modern Workplace adoption
- Security posture
- Application suitability and digital transformation
- Cloud adoption readiness
- IT organisational structure
- EUC suitability assessment
- Remote working strategy
- Competitive advantage

At the end of the consultancy, you'll also receive a comprehensive report, detailing our findings and suggested fixes.
