NODE4
POLICING FIRST 2023
AGENDA

09:30   **ARRIVAL AND REFRESHMENTS**

10:00   **WELCOME**
with Hannah Birch, Node4

10:10   **DIGITAL POLICING: THE VISION**
with Sir Craig Mackey (Former Deputy Commissioner, Metropolitan Police)

Sir Craig will be highlighting the importance of police digital transformation and setting the scene for the day ahead.

10:30   **THE FUTURE OF DIGITAL FORENSICS**
with Detective Sergeant John Price (Team Leader, Digital Forensics and Incident Response, West Midlands Police), Mark Greenhalgh (Head of Business Change – Digital Forensics Programme, PDS) Dan Hamilton (Account Technology Strategist for UK Policing, Microsoft), and Jason Downes (Transformation Director for UK Policing, risual)

Digital evidence has catapulted in recent years – but data can play a critical role in helping investigators solve crimes committed via smartphones and other devices. Our Q&A panel will delve into relevant challenges West Midlands Police faced, and the impact the UK's first cloud-based digital forensic solution is having on police and the public.

11:15   **THE AI REVOLUTION: WHAT'S IN IT FOR UK FORCES?**
with Kevin Ingrey (Chief Technology Officer, Tisski)

The rise of artificial intelligence has been impossible to miss, but how exactly can new-age AI bring fast and effective change for police forces? AI aficionado, Kevin Ingrey, will be showcasing the best ways to use OpenAI and ChatGPT to deliver maximum impact across the sector, and using Microsoft Copilot to build a Power App live during the session.

11:55   **REFRESHMENTS**

12:10   **GETTING TO GRIPS WITH BIG DATA/I-LEAP APP LAUNCH**
with Owen White (Chief of Staff, PDS), Julian Boneham (Data Practice Director, Node4), Chris Higgins (Power Platform Developer, Tisski) and Cos Bellis (Senior Solutions Architect, Tisski)

With enhanced reliance on digital technology comes higher quantities of data; knowing exactly how to handle that data to derive the most value is key. Owen White will discuss data and technology difficulties faced by forces. Expert, Julian Boneham, will then delve into data-related challenges and the skills forces need to use data to their advantage. Attendees will also get an exclusive look at I-LEAP, a new app set to give officers real-time access to Interpol data.

12:55   **LUNCH**

13:55   **MODERN POLICING: THE FIGHT AGAINST CYBERCRIME**
with Andy Bates (Node4 Security Practice Director)

Cyber security extraordinaire, Andy Bates, will be taking a look at cyber security challenges and threats most commonly faced in the policing sector, and offering up valuable insight on how forces can protect their information networks.

14:25   **POWER APPS ON THE FRONTLINE**
with Chris Higgins (Power Platform Developer, Tisski) and Cos Bellis (Senior Solutions Architect, Tisski)

Join Power Platform pro, Chris Higgins, and expert architect, Cos Bellis, as they demonstrate how Microsoft Power Apps are developed to make information capture easier and more intuitive for frontline officers, and how forces can keep the data they collect on the platform safe and secure.

15:20   **REFRESHMENTS**

15:35   **ENIGMA DEMO**
End the day by learning more about the historic Bletchley Park with a demo of the Enigma machine.

16:25   **CLOSING REMARKS**
with Hannah Birch, Node4

16:35   **EVENT CLOSE**
