Unlock value and opportunity with Microsoft 365 Copilot

Microsoft 365 Copilot can help you capture the opportunity that AI presents in the workplace and gain a competitive edge in your market—while protecting your employees, business, and data.

Boost productivity and creativity

- Get up to speed and complete tasks in minutes with integrated cross-app intelligence working across all your business data.
- Navigate all your emails, chats, meetings, mentions and more in a single place, so you can prioritize your time.
- Jumpstart your creative process so you don't have to start from scratch.

Streamline business processes

- Quickly create blogs, social media, and email campaigns for demand generation.
- Close sales faster and improve revenue per sale by quickly drafting customer emails creating compelling presentations for pitches.
- Enhance customer service by automating repetitive tasks and quickly collecting information across systems.

Gain a trusted partner

- Partner to build a secure AI strategy that will grow and scale with your business.
- Stay in control of your data, with Microsoft 365 Copilot security, compliance and privacy policies.
- Protect your data and intellectual property with restricted SharePoint search and the Microsoft Copilot Copyright Commitment.

"[Copilot] gets our writers past all the repetitive tasks those reports require so they can focus their time and effort on understanding the data, which actually enhances the quality of our documents and what we're trying to achieve"

— **Philip Burridge: Director, Operations & Strategy, Morula Health**
